Success Prolongs Life.

It is now well known that increased complexity of life with increased expenditure distinctly aids longevity. Luxury, "the fertile parent of a whole family of diseases," modifies it greatly, of course, but this is a manageable factor; says the London Chronicle. We have only to recall personal experience to realize the force of intellectual stimulation. The interest of sport will sustain men without fatigue for distances they otherwise could not traverse. The excitement of strife will often mask the presence of wounds. Self forgetfulness in all the walks of life, under the stress of love, chivalry or accepted duty, doubles human endurance. Success gives new vitality, new powers, and this is another name for new life.

Zeno (Fram Garden) Fark, Sunday. Part of the Sloux Indians that will appear at this resort the coming summer will pay a visit to Zeno Park on Sunday and have a "religious pow-wow," which will illustrate to the visitor actual services as seen in the reservation which they come from. The Indians were an important factor in the show given at Madison Square Garden, New York, the past week, and after their visit here on Sunday will play another week in New York, and then visit Philadelphia, Baltimore and Washington, returning to Newark in time to open with Gabriel and Longan's Big Wild West Exposition. In addition to the Indians on Sunday the management of this Newark resort will have Prof. Nichois' concert band, several high class vocalists, and the zenograph will offer a new line of moving pictures. The park is fast becoming the favorite family rescrit of Newark. It is situated at 16th avenue and 18th street. All lines transfer at Broad and Market streets, and the Plank road cars run direct to the grounds from both Jersey City and Newark.

nesday night in Madison Squre Garden, when he won the 2.20 class pacing race with the bay mare Helen. Four starters answered the call, but only two really agured in the division of the money.
